CS 191 Workshop I – Project Repository

Instructions:

1. Create a github account for your project. (https://github.com)

2. Create a README.md file containing the following text:

> *<Name of the Project>*
>
> *This is a course requirement for CS191/192 Software Engineering Course of the Department of Computer Science, College of Engineering, University of the Philippines, Diliman under the guidance of Ma. Rowena C. Solamo for the 1st and 2nd Semester of the academic year 2016-2017.*
>
> *<Name of Your Group. Be creative.>*
> *<Member List>*

3. Save the README.me at the root directory of the project website. The README.md file is used to generate the html summary you see that the button of the projects. Github has its own flavor of markdown. See Github Markdown Cheatsheet. (https://github.com/adam-p/markdown-here/wiki/Markdown-Cheatsheet)

4. Create the following folders in your github repository:

> 01-Project Documents
>
> 02-Requirements Engineering
>
> 03-Design Engineering
>
> 04-Software Testing

5. One member should send the email to rcsolamo@up.edu.ph containing the URL of your project repository.

Workshop Assessment - Project Repository Compliance Checklist
*   Was email sent to rcsolamo@up.edu.ph?
